Subject: Microsoft Settlement

To Whom It May Concern,

I am opposed to the current settlement terms. I think the settlement fails to punish Microsoft for its illegal activities. I feel that if the past illegal activities are not punished, then Microsoft is given the message that such conduct is acceptable to the legal system. Consequently, I think that the current settlement provides no requirement that Microsoft change its underlying business practices in the future and would expect that Microsoft will continue those business practices, despite the judgment against it.
